DEEPANSHI

Software Development Student

About: As a Software development student of Bow Valley college, I possess a versatile skill set encompassing a range of programming languages, platforms, and web technologies. Proficient in languages such as C, C++, Java, Python, and SQL, I specialize in developing robust solutions tailored to meet diverse business needs. With a keen eye for detail and a commitment to quality, I leverage my expertise in HTML, CSS, JavaScript, and PHP to craft engaging web experiences.

As a self-disciplined individual, I embrace challenges and strive for excellence in all endeavors. With a portfolio showcasing projects like the CatPhotos, CSS Coloured Marker website and various web applications developed using CSS, HTML, and other technologies, I am poised to contribute effectively to innovative projects and drive business success.

Experience: (Project-Based Experience)

- Designed and coded web applications using HTML, CSS, JavaScript, and PHP, including the CatPhotos website, Coloured Markes application, Cafe Menu Page, and Registration form.
- Utilized Windows and Linux platforms to deploy and test applications, ensuring compatibility and functionality across different environments.
- Leveraged Microsoft Office Suite and Visual Studio for documentation, coding, and project management.
