TECH1102- Internet of Things
Bow Valley College School of Creative Technologies
Learning Contract
Student Name: Deepanshi.
Instructor: Dima Marachi

What are your current skills in this subject matter:

From my previous experience, I learned numerous skills including, problem-solving, Coding, Communication, teamwork, and many more but the Internet of Things is completely new to me after. After my first lecture with Dima Marachi, I am excited to go further with this subject and acquire more skills that are related to IoT. Right now, I am studying AWS cloud computing which I believe it can help during my learning.

Set S.M.A.R.T. goals for yourself in this course:

Specific (Give a detailed description.)

Measurable (How will you know you've achieved it?)

Achievable (Is your objective reasonable?)

Results-oriented (Phrase with the end result in mind.)

Time-phased (Include a deadline.)

S - I aim to become a skilled Developer through the comprehensive knowledge gained in this course and enhancing my practical expertise in Computer field.

M - By consistently practicing, putting dedication efforts, and actively listen to my instructors in class. I believe I can achieve my goals.

A - My objective is to be placed by a reputable company that provides the opportunities of skills enhancement and career advancement so that I can excel in a rewarding position.

R - I consider myself as a proficient tech professional that works in a good position and can create an innovative technical products that will positively impact society in the upcoming world.

T – While I do not have a specific deadline at the moment but as a responsible candidate, I have to be time-oriented and give prioritize tasks, assignments and my overall goal. I hope I see myself as a successful Developer in the future.

What are some strategies you will use to be successful in these goals?

- **CONSISTENT PRACTICE:** Regular practice is key to perfection, so this is one of the most important strategies to become successful. If I want to achieve my goal I have to practice daily.
- **CONTINUOUS LEARNING:** Try to learn new things that not only enhance my skills but also deepen my understanding of this course.
- Lastly, the combination of focus, passion, and hard work forms a bedrock to my success strategy. By staying focused on my goals, challenging passion to my work and putting it in continuous effort.

How much time do you feel is going to be required for your success in this course and with these goals (In-class and outside of class)?

Carefully listen to every detail in class and practice that topic afterward, I believe that is sufficient. As I mentioned this is a new subject for me three hours in week is quite not sufficient.

However, no worries, I have ample of time at home I give my best time to this course. Additionally, there are several services

provided by the college and Instructors that will assist me in this course.
